

List of School Partners

The list below represents schools and districts that have registered with us as a group of educators who want to experience our program together. We serve thousands of educators each year who self-register, take our training as an individual, and then share their learning with their colleagues and practice our curriculum with their students. Mindful Schools is an established provider that has been working in the Bay Area since 2007; not every school that we have served in our 15 years will be represented on this list.

Name	Location
